Attrition Ranking Methodology

Attrition ranking was broken out to identify differences between ranks. 99% of flight students begin training as O-1s but advance in grade through the training pipeline. The attrition reasons change with increase in grade.

- d. Minimum service obligations for Service members who graduate from initial flight training and any recent or pending changes that have been made.
 - In 2017, the USMC updated the service obligation to eight years after completion of flight training.
