

INFORMATION PAPER

Department of the Army, G-1
22 February 2019

SUBJECT: DACOWITS RFI #10

1. **Purpose.** The Committee requests a written response each of the Military Services to include the Reserve and National Guard to provide details on the following:
 - a. Describe your Services' reintegration program for deployed Service members.
 - b. What programs are in place to support deployed servicewomen, who are mothers as they reintegrate back into the family?
 - c. How does your Service assess the effectiveness and impact of these family adjustment programs?
 - d. What additional support is provided to mothers as they return to their families from deployment

2. **Response.**

The requirement to conduct Deployment Cycle Support was removed from the Army's Regulation on Personnel Readiness Processing in March 2018, there are however resources available for all Soldiers i.e., Behavioral Health, Chaplains, Military One Source and Army Community Service.

Each installation can chose to conduct their own form of reintegration training but there is no requirement to do so.
